TUESDAY, NOVEMBER 9, 1875.

WILL IT NEVER END?

Again the United States are threatened with a vile dose of Beecher's wickedness or innocence. Twice already has the matter been aired before the public to the demoralization of purity, morality, decency. We breathed a sigh of relief when the jury returned a verdict of Beecher's three-fourths innocence, and another when Moulton decided to let it drop, and we then fondly hoped it were well done away with. But no, Plymouth Church could not rest until it had stirred the filthy pool once more and set it to belching forth its vile stench, by arousing that lioness, Mrs. Moulton, by expelling her from church, who in their teeth, accused Beecher of adultery. So we are in a fair way to have it all over again. Won't somebody please murder a few of those aristocratic frauds.

INDIAN WAR PREDICTED.—Well informed gentlemen, writing from Bismarck, predict a red-hot Indian war next year, unless Congress takes heroic measures to suppress it, before fairly inaugurated. The frontiersmen insist that the Black Hills will be occupied without a treaty, or that the Indians will be stirred up to such an extent that trouble and a treaty must follow. Except a few timid ones, the people on the frontier do not fear the result in that case, believing that it will require more troops to be thrown into the country, giving them employment and adding to the population of the border.

TWENTY DAYS' RUN.—The result of twenty days' run of the new Leopard mill, says the Elko Post of the 6th, from the 14th of last month, was as follows: Thirty-six bars, valued at \$64,802 17. This is doing pretty well for a new mill, where, after starting up the machinery, it was found necessary to make some alterations and run on low grade ore for a while to fill up. It is probably that the shipments hereafter will increase somewhat, the mill being in perfect working order and lots of fine ore ready to be crushed.

THERE are now 231,821 persons drawing pensions from the United States Government, of whom, strange to say, 5,163 are widows of the soldiers of the war of 1812, which ended sixty years ago. The tenacity of life of those widows and their adherence to the condition of single blessedness is something wonderful. The amount paid for pensions is \$30,000,000 per annum, or thereabouts.

The Point Silver Mine, near La Plata, Peru, is employing about two thousand men. It has been worked almost continuously since its discovery in 1855, and has yielded, it is estimated (as no systematic record has been kept) about \$250,000,000 in bullion.

COAL MINE.—The Elko Post of Nov. 6th says:

It is now reliably stated that coal of a superior quality has been discovered about four miles northeast of the Leopard mill, Cornucopia, by an experienced coal miner, who has for many months been prospecting in that vicinity. It is said that this coal burns freely and well down to an ash; that the quantity is supposed to be considerable; that the deposit will be thoroughly and speedily prospected and its value ascertained. Should it turn out that the deposit is a large one and the coal of good quality, the value of this discovery to Cornucopia and other points north, where fuel is scarce and dear, can not be overestimated.

A man who had been working for a farmer, putting in fifteen or sixteen hours a day, quit on Saturday. "What's the matter?—don't you like the place?" asked the farmer. "Oh, yes! I like the place well enough," exclaimed the hand, "but the nights are getting so long I'm afraid I can't do a full day's work." The farmer smiled like an invalid.

BISMARCK is said to have only three hairs on the top of his head. Just say the "Popo" to him if you want to see those three hairs stand up.

NEWS NOTES.

Storey wants an extra session of the Legislature, and new county buildings.

Such frequent robberies have compelled Wells, Fargo & Co. to draw off all lines in Plumas county.

The Centennial Cabinet is safe. The whole ten tons of it were stored in Carson City during the late fire in Virginia.

Spain will send 22,000 troops to Cuba by January 1st to put the rebellion down.

Not an Indian applied to the Relief Committee in Virginia for aid.

Panamint shipped \$74,000 in bullion during the first half of October.

Heavy snow storms reported on the Union Pacific.

A fearful sensation has been created in Washington because of the indictment by the United States Grand Jury of Orville Grant, the President's brother, and General Babcock, his private secretary, for complicity in the St. Louis whisky frauds. Two ex-United States Attorneys and an ex-United States Marshal are in the same box.

Seventy-five cents, gold, per word is to be charged on all the Atlantic cables hereafter.

The yellow fever is raging in New Orleans, and about fifty per cent. of those attacked have died.

Money is tight in Pioche, and the citizens have addressed a petition to the Board of County Commissioners asking an extension of the time for the payment of taxes from November 15th to December 15th. The Commissioners have no power in the matter, and the petition will be of no avail.

From 8,000 to 10,000 black-and-tan dogs were burned up in the Virginia fire. There are a few left for seed.

They make molasses from water melons in Kansas.

Prof. Watson, of the Michigan University, has discovered another planet. It is of the tenth magnitude.

The Queen of Holland is sick.

A woman in Cleveland, Ohio, the other day, got her husband drunk and had a fight him. She then persuaded him to go to bed, when she chloroformed him and gently sawed off one of his legs with a handsaw.

102 deaths in San Francisco last week.

The recent storms have raised the volume of water in the Carson river so that the largest mills can now run to their full capacity. The Eureka, a sixty-stamp mill, is now running all its stamps on Belcher ore.

The town of Iquique, nearly under the equator, in South America, was recently almost totally destroyed by fire. The loss is set at \$5,000,000.

Brigham Young is reported to be seriously ill, and it is thought that he cannot much longer survive. He prefers death to paying the alimony allowed Ann Eliza by the courts.

A patent has been issued to the Central Pacific for 7,286 17 acres of land in Sierra county.

A movement is on foot in San Francisco to have the Government purchase the Grand Hotel for postal purposes.

New York went Democratic by several thousand.

A BIG FAMILY.—Joseph Long writes to the Centennial Commissioners from McAllisterville, Pa.: "We are coming to the Centennial—Abraham, Calvin, David, John, Benjamin, Isaac, Daniel, James, Samuel, Emanuel, William, myself (Joseph) and sister Hester. You will see there are thirteen of us—twelve brothers and a sister. We were all born of one father and mother, and are therefore full brothers and sister. Our average weight is 230 pounds per man, and together we twelve brothers make the beam kick at 2,645 pounds. We might as well throw Het in. We are not very much on tall, but I would really like to know if there is a bigger family in these United States, and if so will be glad to meet them at the Centennial next year."

SOMEBODY over in Virginia ought to throw Mrs. Bowers, the Washoe seeress, down a deep shaft; she "sees" too much. She predicted the fire, and now the spirits have posted her that there is going to be an earthquake which will turn Mount David bottom-side up. They won't need any hoisting works then.—Reveille.

NOTICE.—Mr. Nels. Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly. —Su Lee & Co.

FOR SALE.—Nels. Hammond has a house for sale. Inquire of him for particulars.

FOR RENT.—A parlor and bed room to rent. In a good location. Apply to F. M. Payne.

A TWO-STORY BRICK ERECTED IN TEN HOURS AND A HALF.

Dr. Benjamin Mishler began the erection of a dwelling house, on South Prince street, San Francisco, the dimensions of which were 20 feet by 30 feet, on the ground floor, two stories high and to contain eight rooms. Mr. Mishler desired to erect it in one day, and with that object in view, he produced the services of a sufficient number of first-class workmen in the different branches necessary, and got them deeply interested in the work.

Work began at 5 o'clock A. M., all going well until 7 o'clock, when an accident occurred to the master brick layer, he received a flesh wound in the back from a hatchet—it not being serious, he kept right on with the work.

A photographer took views of the building every fifteen minutes, and of the workmen whilst in motion, which produced some comic and ridiculous pictures—men, white and colored, in almost every position into which the human frame can be contorted, are represented.

At precisely 8 o'clock, A. M., the structure had advanced to the height of one story with two floors—ground and second-laid, partitions in and lathed and partly plastered, doors hung and stairways up.

Ten o'clock, A. M.—second story brickwork two-thirds up, with carpenters ready to lay floor, plasterers commence lathing, western front painted and brick penciled of first story, masons running short of brick, some delay in consequence, but soon remedied, brick arriving the colored hod carriers vie with each other in their efforts to supply the masons.

At 10 1/2 A. M. several policemen were needed to prevent the immense concourse of spectators from infringing upon the space required by the workmen.

11 o'clock A. M., the bricklayers are up to square of ceiling for third floor, with corners to the heights required to receive the rafters for the roofing. Tinnings waiting.

The process of white-coating is now about completed in the first story.

11 o'clock 8 minutes, first rafter for roof raised.

At 11:11 the last brick was placed upon chimneys and bricklayers are done! Roof sheathed and tinnings begin to lay roofing.

12 o'clock, west front all painted and joints striped.

12:50, scaffolding all removed from building.

1 o'clock, P. M. roofing nearly completed.

2 1/2 o'clock P. M., sash in windows of first story and painters finished; washboards down and rubbish cleared away; the tinnings are leaving the building; roofing and spouting completed. Plasterers still at work in second story. The building has been insured, and in a few hours will be dry enough to be tenable.

This is one of the greatest exploits on record—no building having ever been erected in the same short space of time—just ten hours and a half. Dr. Mishler intends to perform this feat at the Centennial.

DROPPED THROUGH.—A bar of bullion broke through the floor of Woodruff & Ennor's coach, while on the way from Cornucopia to Elko, last Thursday morning. The loss was not discovered until the coach had proceeded several miles, when the driver turned back and found the bullion just where it dropped. It might have been a serious loss to somebody had somebody else happened to happen along and walked away with the bar. It wouldn't be a handy thing to pocket, but a dishonestly inclined person could easily make way with it under favorable circumstances.—Elko Post.

The recent storms have raised the volume of water in the Carson river so that the largest mills can now run to their full capacity. The Eureka, a sixty-stamp mill, is now running all its stamps on Belcher ore.

The town of Iquique, nearly under the equator, in South America, was recently almost totally destroyed by fire. The loss is set at \$5,000,000.

Brigham Young is reported to be seriously ill, and it is thought that he cannot much longer survive. He prefers death to paying the alimony allowed Ann Eliza by the courts.

ARBITRATION.—An action has been on trial for the past week before Messrs. Eastman, Session & Longley, as Arbitrators, which was brought by S. Buckley in November, 1873, to recover from Armina Buckley, Administratrix of the estate of Henry Buckley, a band of about 3,000 sheep in possession of said Henry Buckley at his decease, said band of sheep being claimed by S. Buckley as his, and only given to Henry Buckley upon shares. A judgment was obtained in January, 1874, in favor of the defendant. The plaintiff appealed to the Supreme Court from which the cause was remanded to the District Court for a new trial. Before coming to trial in the District Court the parties agreed to submit to Eastman, Session and Longley as Arbitrators, who as such Arbitrators made an award in November, 1874. In January, 1875, the award was set aside and cause re-submitted to the same Arbitrators, who were engaged the past week in the re-hearing of the case, but have not as yet made any award upon the last hearing.

SHIP COMING OVERLAND.—Twenty-eight cars laden with the hull of a new iron ship for the Pacific Ocean, passed through Harrisburg, Pa., on the 6th, for California. Forty cars more are to follow. The hull was in sections. It will be through Reno in the course of human events if not sooner.

DANCE.—Don't forget the dance to be given by the Reno Terpsichorean Social Club at the Reno Opera House to-night. The proceeds of this hop will be given to the Fire Department. The proceeds hereafter will be devoted to getting a town library—a worthy institution Reno has long needed.

ATTENTION.—Remember the fire meeting on Wednesday night at the Reno Opera house. All are directly interested and will find it to their advantage to be present and take part in the proceedings. Seven o'clock is the hour appointed to call the meeting to order.

COMING.—We see that Piper's troupe will be in Reno soon to give one of their choice entertainments. The troupe is now playing for their own benefit—they having lost all of their wardrobe, etc., in the Virginia fire. A full house will greet them we know.

FIRE.—Last Saturday night Truckee was the scene of a conflagration of Ellen's planing mill and two dwellings. The fire was subdued before any further damage was done by the hard work of the citizens. Loss considerable.

NEW TRIAL.—Yesterday the Cable Consolidated Mining Co. filed a notice of a new trial and intention to appeal to the Supreme Court from a decision made in the case of Golden Fleece vs. Cable Co., which was recently in the District Court here.

GOOD.—The benefit given the Reno Fire Department by the McGivney troupe last Saturday night, netted them the neat little sum of \$250. This is good, and will do the Fire Department much benefit. The \$3,000 necessary will most certainly be raised.

EMIGRANTS.—At least 1,500 emigrants passed through town last week on their way to California. Yesterday two more car loads went in the same direction, very few are returning, from which we infer that they are finding employment somewhere in the broad expanse of the Pacific Coast.

SWITCH CHANGED.—Workmen were busy yesterday moving the switch that connects the V. & T. with the C. P. track, further up toward the Depot Hotel. It is thought it will make it handier for the yard men.

PROPOSITION.—A meeting of the citizens was held at the school house last night to hear what Mr. A. L. Fish, agent for Clapp & Jones, fire engine manufacturers, of Hudson, N. Y., had to say. He offered to sell a 15-horse power engine, weighing 4,700 pounds, which will throw a stream 150 feet into the air through 500 feet of hose, a hose cart and 500 feet of the best hose, delivered in Reno, for \$4,500. He guaranteed to have it steamed up in five or six minutes. After a little conversation the meeting adjourned.

GAS.—The Barnett Brothers are about to introduce gas into their block, corner Commercial Row and Virginia street. Yesterday the necessary apparatus was being put into place, and in a day or two he proposes to have the best lighted store in town. If he makes a success of it the merchants of the town generally will introduce it. The experiment is watched with considerable interest.

PARTIES who have ordered trees of the Dingee & Conard Co., of West Grove, Pa., will please call for them at the residence of Messrs. Chapin & Cuppett, on Virginia street, Reno, Monday, Nov. 15th. All should call upon that day as their business will not consistently admit of their remaining more than the one day, as they have several other points to make deliveries.

NO STOCK BOARD.—Mr. B. F. Sherwood, a noted stock broker, died in San Francisco Sunday last, and out of respect to his memory the several Stock Boards of the city have adjourned until Wednesday. Hence there will be no quotations.

DANCE.—Don't forget the dance to be given by the Reno Terpsichorean Social Club at the Reno Opera House to-night. The proceeds of this hop will be given to the Fire Department. The proceeds hereafter will be devoted to getting a town library—a worthy institution Reno has long needed.

SHIP COMING OVERLAND.—Twenty-eight cars laden with the hull of a new iron ship for the Pacific Ocean, passed through Harrisburg, Pa., on the 6th, for California. Forty cars more are to follow. The hull was in sections. It will be through Reno in the course of human events if not sooner.

ATTENTION.—Remember the fire meeting on Wednesday night at the Reno Opera house. All are directly interested and will find it to their advantage to be present and take part in the proceedings. Seven o'clock is the hour appointed to call the meeting to order.

COMING.—We see that Piper's troupe will be in Reno soon to give one of their choice entertainments. The troupe is now playing for their own benefit—they having lost all of their wardrobe, etc., in the Virginia fire. A full house will greet them we know.

SWITCH CHANGED.—Workmen were busy yesterday moving the switch that connects the V. & T. with the C. P. track, further up toward the Depot Hotel. It is thought it will make it handier for the yard men.

Of course Sam Welch will spread a splendid supper to-night, so that all who attend the dance can get a good lunch. Remember the Woodcock Restaurant to-night.

Snow at Mackay-Fair's mill is ten inches deep now. The demand for lumber is so great, however, that they will continue work as long as possible.

SAVE COST.—All parties indebted to Steel Brothers will do well to read the notice in another column. By doing it they will save costs.

The Hoodlum Board held a session yesterday afternoon. Their quotations are given in this paper to-day.

REMOVED.—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

TOWN LOTS FOR SALE.—Any person wanting town lots in an eligible location will find it to their advantage to call on C. A. Richardson.

CLEOPATRA GOLD AND SILVER

MINING CO.—Location of principal

place of business, Reno, Washoe County, Nev.

Location of works, Peavine Mining District,

Washoe County, Nevada.

Notice is hereby given that at a meeting of the

Board of Trustees of said company held on the

1st day of October, A. D. 1873, an assessment

(No. 4) of three cents per share was levied on the

capital stock of said company, payable immediately

in United States gold coin to the Secretary

at the office of the Company, Reno, Nevada.

Any stock upon which this assessment shall re-

main unpaid on the 8th day of November, 1875,

will be delinquent and advertised for sale at

public auction and unless payment is made be-

fore will be sold on Wednesday, December 8, 1875,

to pay delinquent assessment together with cost

of advertising and expense of sale.

By order of the Board of Trustees.

JOHN HALLAHAN, Sec'y.

Reno, October 8, 1875.

NOTICE TO TAXPAYERS.

Treasurer's Office, Reno, Oct. 18, 1875.

NOTICE is hereby given that for the fiscal year, A. D. 1875,

are now due and payable at this office, and that

the law in regard to their collection will be

strictly enforced.

G. W. HUFFAKER,
County Treasurer and ex-officio Tax Collector.

Office at Court House

N. B.—On all taxes unpaid at the close of

business on the 15th day of November, A. D.

1875, there will be ten per cent, added for delin-

quency, and when the amount of taxes exceeds

three hundred dollars, twenty-five per cent will

be added in addition to the ten per cent.

LEGAL.

ASSENEE'S SALE IN BANKRUPTCY.—A signee is hereby given that the undersigned Assignee in Bankruptcy of the Estate of F. A. PARKE, Bankrupt, will, on TUESDAY, the 9th day of November, A. D. 1875, at the hour of 1 o'clock P. M. of that day, on the premises near the Town of Washoe, County of Washoe, State of Nevada, offer for sale at public auction, and sell to the highest bidder for cash, United States gold coin, the following described real estate—to wit: That certain piece or parcel of land known as the Parke mill-site, consisting of about twenty acres of land, more or less, together with the quartz or tailings mill thereon, together with the appurtenances thereto belonging, together with the tailings and slums on said premises.

Deed at the expense of the purchaser.

J. G. HAMPTON,
Assignee of the Estate and Effects of F. A. Parke,

Bankrupt in Bankruptcy.

SPRING WAGONS.

KENT & WEEKS

Sole Agents for the Celebrated

DAVIS BROS. PATENT

COMBINATION SPRING PLATEFORM,

For the State of Nevada.

The Best Carrying, Easiest Riding and

Most Durable Wagon in Use.

The best carrying because of perfect Springs,

and bearings of proper joints to give the greatest

strength.

Easiest riding. A Wagon carrying 1500 lbs.

rides as easy for one man as the last Phaeton.

Most durable, because the combination of the

Springs is such as to give perfect elasticity to the

gear, thereby entirely obviating the sharp

joints and consequent strain on the

Wheels and other parts of the Wagon, allowing

the Wagon to pass over all irregularities of the

road without winding or cracking the box, or

jerking, or inconvenience to those riding. The

binding of the circle, a necessity with all other

Platform Wagons, is entirely obviated, allowing

the Wagon to follow the road without crowding

the team from side to side.

Our Wagons are manufactured from choice

material, by the best mechanics, thoroughly

painted, with fine finish and trim, and warranted

If you want a Family Wagon, a Peddler's

Wagon, Market wagon, or a Wagon for any of

the purposes for which the Platform or Democrat

Wagon is generally used, see and try these

Wagons and you will use no other.

FOR SALE BY

KENT & WEEKS,
